

BioKelp X5

PLANT GROWTH PROMOTOR

Improves yields by increased root and crop growth

Ecklonia Maxima Kelp Extract Concentrate
Preserved without biocides. No colourant added.

Content Weight (SG): 1.06 @ 20°C | Pre-filtered to 50 Micron | pH 4.0 – 6.8

BATCH:

MANUFACTURING DATE:

Distributed by Atlantic Fertilisers div. of Hero Fuels (Pty) Ltd
P.O. Box 81, Philadelphia, 7304 | Reg. No. 1996/000910/07 | Tel: 021 972 1013
www.atlanticfertilisers.co.za | Product viable for 12 month after manufacturing date.

Manufactured by KelpX (Pty) Ltd | Reg. Nr. 2017/531270/07
Plot 43, Bashewa, Gauteng, South Africa | Email: wecare@kelpx.com

Application Guidelines:

Standard application:
4ml/10 litre water or 40ml/100 litre water

Foliar application adjusted according to spray volume:
• 400 – 600 ml BioKelp X5 with 250 – 1000 litre of water/ha
• 600 – 800 ml BioKelp X5 with 1000 – 1500 litre of water/ha
• 800 – 1000 ml BioKelp X5 with 1500 – 2000 litre of water/ha

Foliar spray by Knapsak: 20 – 40ml product with 15 – 40 litre water
Soil drench: 1ml/1 litre water
Root Dipping: 200 – 400ml/100 litre water
Application via irrigation: 2 – 4 litre/ha

Guidelines for use:

- Shake well, stir well in dilution tank or pre-dilute.
- Always mix BioKelp X5 first into the water, then the rest of the products.
- Allow at least 10 days between applications.
- Ensure final mixture in tank is below pH 7.
- Compatibility test must be performed when mixing with other products.
- Water soluble.
- Pre-filtered to 50 Micron.
- Close after use.

WARNING:

- Store out of direct sunlight.
- Store in cool place.
- Not for human consumption.
- Results will vary depending on weather, accuracy of application, water quality and other conditions.
- Test before applying to whole crop.
- Use of agronomist is recommended.
